

Jerseyville's State Street Farmers' & Artisan Market

June 22 2010 3:34 PM

What: A market showcasing locally grown produce and homemade artisan items

Where: Corner lot, N. State Street and Exchange

When: Every Tuesday, July - September

Time: 4:00 pm – 7:00 pm

Various vendors will come together again this year to sell a variety of locally grown produce & artisan items including blackberries, sweet corn, tomatoes, peppers, peaches, handmade soaps, jewelry, pottery, baskets, recycled crafts, and much more!

Buying produce from local growers is a great way to support the local economy, to eat healthier, and show appreciation for our farmers and artisans. It's also a great opportunity for a community to come together for a fun event with food and entertainment. Get to know the faces behind the produce and art items!
