

Director of Mental Health makes state on Cullerton's comments

July 27 2017 9:14 AM

SPRINGFIELD – Director Diana Knaebe of the Illinois Division of Mental Health today issued the following statement after Leader Cullerton’s press conference:

“The Illinois Division of Mental Health works every day to reduce the stigma attached to mental illness,” Knaebe said. “For a political leader to perpetuate this stigma to score political points is completely inappropriate and we respectfully request that our leaders stop doing so.”
