

SIUE School of Pharmacy presents white coats to class of 2021

September 18 2017 12:47 PM

EDWARDSVILLE - The Southern Illinois University Edwardsville School of Pharmacy (SOP) presented 84 students comprising its class of 2021, with their professional white coats during the 12th White Coat Ceremony held Friday, Sept. 15 in the Morris University Center's Meridian Ballroom.

The official garment acknowledges the students' important entrance into the Doctor of Pharmacy degree program. During the ceremony, the students expressed their commitment to the service-focused profession by reciting the Pledge of Professionalism.

"The coats you wear today are a symbol, or outward manifestation, of professionalism," said Gireesh Gupchup, PhD, dean of the SOP. "It's what's inside the white coat that truly matters."

“The essence of professionalism is in your heart and mind, and in the acknowledgement of responsibility that you accept each day when you provide accurate, caring service to your patients. I believe that you will find that providing service is the highest calling of our profession.”

The white coats symbolically represent the class of 2021’s transition from students to student pharmacists.

The evening’s keynote speaker was Cynthia Boyle, PharmD, professor and chair of the Department of Pharmacy at the University of Maryland Eastern Shore. The presenting sponsor was Shop ‘n Save Pharmacy.

SIUE School of Pharmacy: Today’s pharmacists improve patients’ lives through the medication and education they provide. Dedicated to developing a community of caring pharmacists, the SIUE School of Pharmacy curriculum is nationally recognized as a model that offers students a unique combination of classroom education, research, community service and patient care. The School of Pharmacy’s areas of excellence include a drug design and discovery core; pediatric practice; chronic pain research and practice; and diabetes research and practice. As the only downstate Illinois pharmacy doctorate program, the SIUE School of Pharmacy is addressing the growing need for highly trained pharmacists in a rapidly growing field.
