

# **Donna Goestenkers of Team Med Global celebrates 42 years in medical staff services industry**

February 14 2018 1:50 PM

GLEN CARBON - Donna Goestenkers, CPMSM and president of Team Med Global, is celebrating her 42<sup>nd</sup> year in the medical staff services industry this year.

Since entering the healthcare industry, Goestenkers has been dedicated to the education, training, and development of medical services professionals (MSPs), medical staff leaders, and boards of directors on issues creating challenges in today's healthcare industry.

Lately, Goestenkers has been creating groundbreaking programs and services, including the MSP Tech Squad, Executive MSP Program, Payer Enrollment Institute, and the Practice Management Team, all of which were established last year. These first-of-their-kind programs assist MSPs in realizing the full benefits of their current technological solutions and guide them toward greater career excellence.

In addition, Goestenkers frequently travels on her "road show," called "The Powerful Minds and Positive Partnerships Tour," which includes inspirational and informative presentations and webinars. To date, she has traveled to 38 states, giving presentations, and presenting to a total audience of 11,104 attendees, and providing highly sought expertise to MSPs, healthcare administrators, and physician leaders nationwide.

"While I have been serving the needs of the healthcare industry for so many years, my commitment has constantly remained the same – to innovate, motivate, and influence the industry. This is all thanks to the unwavering support and encouragement I receive from MSPs and clients," said Goestenkers.

Team Med Global is a full-time healthcare consulting firm that introduces new ideas, pushes innovation, and promotes the work of MSPs. The company solves an

organization's problems with creative and customized solutions while remaining respectful of their company culture. Team Med Global includes a team of professional collaborators that represent diverse skillsets of in-demand expertise, all of which have a direct impact on the Medical Staff Services profession nationwide.
