

Alton Memorial Hospital hosts "Kids in the Kitchen"

April 12 2018 10:11 AM

ALTON - The latest installment of Alton Memorial Hospital's "Kids in the Kitchen" on Wednesday evening was another success. Morrison's Food and Nutrition staff hosted 35 children in the hospital's café meeting rooms, showing them several healthy recipes made up of fruits and vegetables. And a special thank you to Dr. Laura Hill, who

conducted the program. In the first photo, Joseph Rabozzi, 11, a student at North Elementary School in Godfrey, takes a bite from one of his recipes. In the second photo, the Morrison's staff and the children gathered at the end of the program.
