

# Partnership for Drug-Free Communities to officially unveil new website on Sept. 26

September 10 2018 3:15 PM

MARYVILLE - The Partnership for Drug-Free Communities has scheduled a Press Conference to speak about the launch of the coalition's new website, to be held at Anderson Hospital in Maryville, IL.

This website, the result of a collaborative effort between local treatment facilities, law enforcement agencies, support groups, and community members, serves as a one-stop shop for those seeking help with substance misuse.

Please feel free to attend the monthly Partnership for Drug-Free Communities meeting, held immediately prior to the Press Conference. The September monthly meeting is scheduled to begin at 10:00 a.m., with the website demonstration scheduled to begin at 10:30 a.m., and Press Conference scheduled to begin at 11:00 a.m.

The Partnership for Drug-Free Communities was formed in 2016, as a coordinated effort between treatment providers, law enforcement agencies, and community change-makers. Composed of agencies from Madison, St. Clair, and the surrounding Illinois counties, the Partnership focuses on the education, treatment, and law enforcement components of substance misuse in the area.
