

Local Children Explore Environmental Sciences with NGRREC

August 29 2013 2:29 PM

GODFREY – During a recent Toddle Towne field trip, Morgan Alexander, 5, of Alton, left, and Gwynevere Billingsly, 6, of Granite City, piece together a macroinvertebrate puzzle after a scavenger hunt for the puzzle pieces at the Jerry F. Costello Confluence Field Station, which is home to the National Great River Research Education Center. For more information, visit www.ngrrec.org.
