

Kitchen Malfunction Triggers Fire Alarm at Alton High School

November 2 2010 4:36 PM

Earlier today, a kitchen equipment malfunction occurred in the Alton High cafeteria that subsequently triggered the school's fire alarm. As a precautionary measure, students were evacuated temporarily until the building was cleared for re-entry. At no time, were any students in danger. Alton High operated on a delayed lunch schedule today with all classes and services returning to regular operation by 1:35 p.m.
