About Beverly Farm

Beverly Farm was founded in 1897 by Dr. William H.C. Smith and his wife, Elizabeth to establish a caring home, socialization, proper medical care, healthy diet, physical exercise, education, recreation and meaningful work for people living with developmental disabilities. Today it is a planned community that looks and feels like a neighborhood. There are homes; a recreation center with a pool; an equestrian center; medical services; therapies, and much more. Nearly 400 individuals who live with intellectual or developmental disabilities call Beverly Farm home. We challenge and encourage them to live their best life.

The mission of Beverly Farm is to provide a loving, caring home for adults with developmental disabilities, providing each individual with physical and emotional security and a dignified quality of life, with opportunities and challenges, within each individual's functional capabilities.
