## Illinois State Health Department COVID-19 Stats

**SPRINGFIELD** – Madison County topped the 4,000-mark in positive COVID-19 cases on Sunday with 4,040 and 98 deaths, the Illinois Department of Public Health said on Monday.

There were 65 new cases of COVID-19 announced in Madison County on Sunday.

The positivity rate in the county has lowered but still remains at a high point on Sunday at 12.67 percent, with a three-day average of 11.54 percent. The seven-day average is 12.04 percent and the 10-day average is 11.28 percent.

The **positivity rate** is the percentage of all coronavirus tests performed that are actually positive, or: (positive tests)/(total tests) x 100 percent. This rating helps public health officials answer questions such as: What is the current level of COVID-19 transmission in the community and are we testing enough based on the number of people who are getting infected?

The Illinois Department of Public Health (IDPH) today announced 1,668 new confirmed cases of COVID-19 in Illinois, including 7 additional confirmed deaths.

**The IDPH statewide synopsis of COVID-19 deaths in the past 24 hours is as follows:**

Bureau County: 1 male 40s

Cook County: 1 female 70s, 1 male 70s, 1 male 80s, 1 female 90s

Lake County: 1 female 70s

Perry County: 1 male 90s

Currently, IDPH is reporting a total of 235,023 cases, including 8,026 deaths, in 102 counties in Illinois. The age of cases ranges from younger than one to older than 100 years.
