Lake County: 1 female 50s, 1 male 60s

McHenry County: 1 male 40s

McLean County: 1 female 70s

Tazewell County: 2 female 80s

Williamson County: 1 female 80s

Winnebago County: 1 male 70s

Currently, IDPH is reporting a total of 297,646 cases, including 8,743 deaths, in 102 counties in Illinois. The age of cases ranges from younger than one to older than 100 years. The preliminary seven-day statewide positivity for cases as a percent of total test from September 25 – October 1 is 3.4%. Within the past 24 hours, laboratories have reported 72,691 specimens for a total of 5,763,128. As of last night, 1,678 people in Illinois were reported to be in the hospital with COVID-19. Of those, 373 patients were in the ICU and 162 patients with COVID-19 were on ventilators.

Following guidance from the Centers for Disease Control and Prevention, IDPH is now reporting separately both confirmed and probable cases and deaths on its [website](#). Reporting probable cases will help show the potential burden of COVID-19 illness and efficacy of population-based non-pharmaceutical interventions. IDPH will update these data once a week.

*All data are provisional and will change. In order to rapidly report COVID-19 information to the public, data are being reported in real-time. Information is constantly being entered into an electronic system and the number of cases and deaths can change as additional information is gathered. For health questions about COVID-19, call the hotline at 1-800-889-3931 or email dph.sick@illinois.gov.
