Currently, IDPH is reporting a total of 355,217 cases, including 9,345 deaths, in 102 counties in Illinois. The age of cases ranges from younger than one to older than 100 years. The preliminary seven-day statewide positivity for cases as a percent of total test from October 14 – October 20 is 5.7%. Within the past 24 hours, laboratories have reported 66,791 specimens for a total of 6,950,105. As of last night, 2,338 people in Illinois were reported to be in the hospital with COVID-19. Of those, 502 patients were in the ICU and 194 patients with COVID-19 were on ventilators.

*All data are provisional and will change. In order to rapidly report COVID-19 information to the public, data are being reported in real-time. Information is constantly being entered into an electronic system and the number of cases and deaths can change as additional information is gathered. Information for a death previously reported has

changed, therefore, today's numbers have been adjusted. For health questions about COVID-19, call the hotline at 1-800-889-3931 or email dph.sick@illinois.gov.
