

Perfect Pasta Inc. Recalls Frozen Meat and Poultry Products Produced Without Benefit of Inspection

December 21 2020 5:01 PM

WASHINGTON - Perfect Pasta Inc., an Addison, Ill. establishment, is recalling an undetermined amount of heat treated not shelf stable frozen meat and poultry products that were produced without the benefit of federal inspection, the U.S. Department of Agriculture's Food Safety and Inspection Service (FSIS) announced today.

The various packages of frozen meat and poultry products were produced between December 2018 and December 2020 and bear an establishment number “Est. 19829/P-19829” inside the USDA mark of inspection.

All products subject to the recall can be found on the following . These items were distributed and sold nationwide.

The problem was discovered when an FSIS investigation determined the firm was reportoning and repackaging amenable products in a secondary location without the benefit of federal inspection. The repackaging facility does operate under the USDA Grant of Inspection for Est.19829/P-19829.

There have been no confirmed reports of adverse reactions due to consumption of these products. Anyone concerned about a reaction should contact a healthcare provider.

FSIS is concerned that some product may be frozen and in consumers’ freezers. Consumers who have purchased these products are urged not to consume them. These products should be thrown away or returned to the place of purchase.

FSIS routinely conducts recall effectiveness checks to verify recalling firms notify their customers of the recall and that steps are taken to make certain that the product is no longer available to consumers. When available, the retail distribution list(s) will be posted on the FSIS website at www.fsis.usda.gov/recalls.

Consumers and members of the media with questions about the recall can contact Quality Assurance Director, Connie DeMarco and Quality Assurance Manager, Paul Novak at (630) 543-8300.
