Currently, IDPH is reporting a total of 1,081,354 cases, including 18,398 deaths, in 102 counties in Illinois. The age of cases ranges from younger than one to older than 100

years. Within the past 24 hours, laboratories have reported 86,121 specimens for a total 14,984,649. As of last night, 3,284 in Illinois were reported to be in the hospital with COVID-19. Of those, 722 patients were in the ICU and 379 patients with COVID-19 were on ventilators.

The preliminary seven-day statewide positivity for cases as a percent of total test from January 13–19, 2021 is 5.5%. The preliminary seven-day statewide test positivity from January 13–19, 2021 is 6.8%.

As of last night, 864,150 doses of vaccine have been delivered to providers in Illinois, including Chicago. In addition, approximately 524,050 doses have been allocated to the federal government's Pharmacy Partnership Program for long-term care facilities. This brings the total Illinois doses to 1,388,200. IDPH is currently reporting a total of 537,740 vaccines administered, including 86,180 for long-term care facilities. Yesterday, a total of 29,008 doses were administered. The 7-day rolling average of vaccines administered daily is 21,869 doses.

If all the mitigation metrics continue to improve, Region 6 will move into Phase 4 of the Restore Illinois Plan on Thursday, January 21, 2020, and Region 7 is on target to move into Tier 1.

*All data are provisional and will change. In order to rapidly report COVID-19 information to the public, data are being reported in real-time. Information is constantly being entered into an electronic system and the number of cases and deaths can change as additional information is gathered.
