Thirteen Members Of St. Louis County Police Department Test Positive For COVID-19 In Past 11 Days

January 26 2021 2:14 PM

ST. LOUIS COUNTY - In the past eleven days, thirteen members of the St. Louis County Police Department have tested positive for COVID-19. This includes commissioned officers and professional staff members in the Division of Patrol (5 Precincts), the Division of Special Operations, and the Division of Operational Support. It is unknown how our staff members contracted it.

Potentially affected work area(s) and vehicle(s) have been thoroughly cleaned.

There have been a total of 193 positive test results since the global pandemic first directly impacted the personnel of the Department on March 28, 2020. 184 of the 193 have already recovered and returned to duty.

The St. Louis County Police Department stands ready to serve and protect.
