

# **IDOA Releases 2020 Hemp Harvest Numbers**

February 24 2021 10:05 AM

**SPRINGFIELD** – The Illinois Department of Agriculture (IDOA) has released final harvest numbers from the 2020 hemp growing season. IDOA issued 802 Hemp Growers licenses for the 2020 season. Hemp farmers reported 2,734 acres planted resulting in 2,392 acres harvested. The 2020 numbers are down from 2019 just over 2,800 acres for total harvested crop.

“The hemp industry, just like many others was hit by the pandemic,” said IDOA Division of Cannabis Manager David Lakeman. “Workforce safety challenges, pandemic-related impacts on the market, and some initial issues with processing all contributed to a more difficult year for the hemp industry. Despite these challenges, the Illinois hemp industry continued to demonstrate resilience and strength. IDOA remains committed to being a good partner to the industry, and we look forward to the 2021 growing season.”

Harvest numbers have been broken down into four distinct categories. Farmers reported harvesting 1,278,00 pounds of flower, 39,000 pounds of seed, 8,500 pounds of grain and 48,000 pounds of fiber.

The Illinois Department of Agriculture is currently accepting applications for the 2021 Hemp growing season. If you are interested in growing or processing hemp, please visit our website at [https://agrlicensing.illinois.gov/Industrial\\_Hemp/](https://agrlicensing.illinois.gov/Industrial_Hemp/)
