

# Touchette Announces Hospitalist Affiliation With MEDS

February 25 2021 10:15 AM

CENTREVILLE - Touchette Regional Hospital announced a new affiliation with MEDS Emergency Physician Staffing & Management, a local physician-owned company.

“MEDS currently provides our emergency room staffing, and we have been very pleased with the service for our patients and in dealing with them on the business side,” said Jay Willsher, President of Touchette Regional Hospital. “The addition of MEDS as our physician and nurse practitioner staffing for in-patient will increase quality and improve communication between the ED and the floors.”

“Patients will not notice any difference and should see improved service and continuity of care between their emergency room provider and the staff once admitted to the hospital if needed,” noted Dr. Len Glover, president of MEDS. “We look forward to continuing our working relationship with Touchette in this new manner.”

MEDS took over the in-patient staffing at Touchette on January 4, 2021. They have provided Emergency Department staffing since 2019.
