

Archford Accounting Donates 550 Lunches To Children In Need Through The Belleville Summer Sack Lunch Program

July 12 2021 2:53 PM

SWANSEA — As an incentive for clients to electronically upload their documents to stay safe and healthy this tax season, Archford Accounting donated 550 lunches to the Belleville Summer Sack Lunch Program.

In an effort to keep clients and employees safe during tax season in the midst of an ongoing pandemic as well as be more environmentally sustainable, Archford Accounting encouraged clients to utilize their secure upload portal when sending in tax documents. The accounting firm donated one lunch to a child in need for each client that electronically uploaded their documents. As a result, 550 lunches were donated to help provide balanced lunches this summer to Belleville Area children who are part of food insecure families.

“Through this incentive, we were able to save our clients time, keep them safe and help a child in need. I am grateful for an innovative team who not only is committed to our clients, but also our community,” said Jim Maher, CEO and Founder of Archford Accounting. “Thank you to Zion Lutheran Church for spearheading the Belleville Summer Sack Lunch Program.”
