JERSEY - The Jerseyville Walmart Supercenter at 1316 South State Street was closed briefly Saturday morning with power and system issues, but is now back open for normal business functions.

The closure was about three hours in the 6 a.m. to 9 a.m. range on Saturday.

However, the Walmart team worked quickly and remedied the situation for customers. A check at 9:35 a.m. Saturday revealed normal functions again for the supercenter.
