

# Statewide Unemployment Rate Down, Payroll Jobs Up in March

April 17 2022 7:15 AM

SPRINGFIELD – The Illinois Department of Employment Security (IDES) announced today that the unemployment rate fell -0.1 percentage point to 4.7 percent, while nonfarm payrolls increased by +18,300 in March, based on preliminary data provided by the U.S. Bureau of Labor Statistics (BLS) and released by IDES. The February monthly change in payrolls was revised from the preliminary report, from +19,600 to +25,100 jobs. The February unemployment rate was unchanged from the preliminary report, remaining at 4.8 percent. The March payroll jobs estimate and unemployment rate reflects activity for the week including the 12th.

In March, the industry sectors with the largest over-the-month gains in employment were: Professional and Business (+9,700), Financial Activities (+3,800), and Leisure and Hospitality (+3,500). The industry sectors that reported monthly payroll declines were: Trade, Transportation, and Utilities (-3,500), Other Services (-1,200), and Mining (-100).

“We are pleased to see another positive sign of Illinois’ continued economic growth,” said Deputy Governor Andy Manar. “IDES and the Pritzker Administration are committed to innovating and building an even stronger workforce system. Workers and businesses across Illinois can leverage the latest resources by visiting [Get Hired Illinois](#) or [IllinoisJobLink.com](#) today.”

“With the unemployment rate falling and thousands of jobs being added in key industries, such as hospitality and professional services, Illinois continues on a positive economic trajectory,” said DCEO Director Sylvia I. Garcia. “DCEO remains laser-focused on prioritizing efforts to attract job creators while supporting an equitable economic recovery for all Illinoisans.”

The state’s unemployment rate was +1.1 percentage points higher than the national unemployment rate reported for March, which was 3.6 percent, down -0.2 percentage point from the previous month. The Illinois unemployment rate was down -2.0 percentage points from a year ago when it was at 6.7 percent.

Compared to a year ago, nonfarm payroll employment increased by +238,300 jobs, with gains across nearly all major industries. The industry groups with the largest jobs increases were: Leisure and Hospitality (+87,600), Professional and Business Services (+55,000), and Trade, Transportation and Utilities (+40,200). Construction was the only industry that reported a decrease (-700). In March, total nonfarm payrolls were up +4.1 percent over-the-year in Illinois and up +4.5 percent in the nation.

The number of unemployed workers was down from the prior month, a -3.0 percent decrease to +299,300 and was down -29.4 percent over the same month for one year ago. The labor force was up +0.4 percent over-the-month and up +2.2 percent over-the-year. The unemployment rate identifies those individuals who are out of work and seeking employment. An individual who exhausts or is ineligible for benefits is still reflected in the unemployment rate if they actively seek work.

In May 2020, Governor Pritzker launched [Get Hired Illinois](#), a new one-stop-shop website to help connect job seekers with hiring employers in real time. The site features virtual job fairs, no-cost virtual training, and includes [IllinoisJobLink.com](#) (IJL), the state’s largest job search engine, which recently showed 43,189 posted resumes with 169,932 available jobs.

## Seasonally Adjusted Unemployment Rates

### Illinois Seasonally Adjusted Nonfarm Jobs – by Major Industry

- Monthly 2017-2021 seasonally adjusted labor force data for Illinois, and all other states, have been revised as required by the U.S. Bureau of Labor Statistics (BLS). The monthly historical revisions to state labor force estimates reflect new national benchmark controls, state working-age population controls, outlier specifications, seasonal factors, as well as updated total nonfarm jobs and unemployment benefits claims inputs. Illinois labor force data were also smoothed to eliminate large monthly changes as a result of volatility in the monthly Current Population Survey (CPS) and national benchmarking. For these reasons, the comments and tables citing unemployment rates in previous news releases/materials may no longer be valid.
- Monthly seasonally adjusted unemployment rates for Illinois and the Chicago-Naperville-Arlington Heights Metropolitan Division are available [here](#).
- Monthly 2017-2021 seasonally adjusted nonfarm payroll employment data for Illinois have been revised. To control for potential survey error, the estimates are benchmarked annually to universal counts derived primarily from unemployment insurance tax reports.
- Not seasonally adjusted jobs data with industry detail are available [here](#). “Other Services” include activities in three broad categories: personal and laundry; repair and maintenance; and religious, grant making, civic and professional organizations. Seasonally adjusted data for subsectors within industries are not available.
