ALTON – OSF HealthCare Saint Anthony's Health Center and OSF Medical Group are pleased to announce that we are welcoming new patients to all three primary care offices in the Riverbend area.

OSF HealthCare understands the importance of establishing a relationship with a primary care provider (PCP), and to better serve our patients and community, we have expanded our hours for greater flexibility to accommodate busy schedules.

Primary care providers at OSF Medical Group help guide patients through the health care journey – whether getting preventive care such as wellness checks or referrals to specialists. Working together with OSF primary care clinicians, patients will have access to health education, disease prevention, and healthy living options.
