What makes your relationship special? We are a blended family with 9 kids. We originally met back in 1994, but we grew apart and both went on and started a family. After major life changes and many years later we rekindled the fire and got married. Here we are living our best life, going to car shows, cruises and the beaches in Florida. Can't wait to continue this journey.

Share a memory you have made together: One of our best memories is the week we spent on the beach. Such a peaceful, relaxing, making memories time.
