Largest Lotto Jackpot Of Year On Line Tonight, Topping $14 Million

April 24 2023 3:20 PM

CHICAGO – The Lotto jackpot for tonight's drawing is now a whopping $14,150,000.

This is the largest Lotto jackpot in nearly three years, when a lucky Illinois player scooped up $16.5 million in June 2020.

Lotto is an Illinois-only game with three chances to win a million dollars or more with every drawing.

So far this month, two Lotto players have won $1 million each, but the jackpot has kept growing. In total this year, over 2.5 million winning Lotto tickets have been sold, netting players about $10.9 million in prizes.

Lotto is played three times a week with drawings on Monday, Thursday and Saturday. The next prize draw is tonight, April 24 at 9:22 p.m. CT.

Lotto tickets are $2 each, and players have the option to add Extra Shot for an additional $1 for the chance to multiply non-jackpot prizes.

With over 7,000 Illinois Lottery retailers across the State, Illinois Lottery players can conveniently pick up a ticket at their local store - or they can login to the Illinois Lottery website or app and purchase a ticket online.
