About Beverly Farm

Beverly Farm was founded in 1897 by Dr. William H.C. Smith and his wife, Elizabeth, to establish a caring home that included socialization, proper medical care, healthy diet, physical exercise, education, recreation and meaningful work for people living with developmental disabilities. Today it is a planned community that looks and feels like a neighborhood. There are homes, a recreation center with a pool, an equestrian center, medical services, therapies, and much more. Just under 300 individuals who live with intellectual or developmental disabilities currently call Beverly Farm home.

The mission of Beverly Farm is to provide a loving, caring home for adults with developmental disabilities, providing each individual with physical and emotional security and a dignified quality of life, with opportunities and challenges, within each individual's functional capabilities.
