# We Fix Broken Smartphones and Tablets

\$50 Labor Plus Parts

A shattered screen can ruin an entire day. It's easy to do, for whatever reason you decided to take off your case (it was dirty, it started to become loose, etc) and bam, someone runs into you and your phone goes flying. Or you get out of your car and forget you left your phone on your lap, to the street it goes. Or after a few cocktails and your whaling your phone around just asking for it to get damaged.

Don't worry, you don't have to pay \$500 for a new phone and you don't have to go through an insurance claim to fix it, nor do you need to make an appointment at the Apple store and wait several hours for your turn after the hour drive to the Galleria.

The technicians at the Riverbender.com Tech Center can replace your shattered screen in minimal amount of time. Usually, depending on the work load, the screen can be

replaced within the hour. Screen replacements on iPhone 5s are less than \$100, iPhone 6 - \$145, iPhone 6 Plus -\$200. The cost of repair on other equipment is case by case and prices may vary.

The techies can repair the screens on Macs, iPhones, iPads, Android Smartphones and Tablets. Service on all iPhone 5 & 6 are guaranteed, yet some models of the Android Smartphones and tablets vary, due to access of the parts.

The Riverbender Tech Center is located at 200 West Third Street Suite 115 in downtown Alton and has an endless amount of capabilities when it comes to everything tech. [CHECK US OUT TODAY!](#)

About Riverbender Tech Center: Top quality service is our #1 priority. You'll also find great prices, great products and very knowledgeable people. #### Customer Reviews:

Lacey Eveans - "I was happy with it and would definitely go back. Since they weren't busy they did it right there on the spot. It took no time at all, they were very friendly, and reasonably priced."
