

Bees, Beekeeping and Honey!

Bees are among the most *important* creatures to humans on Earth. These amazing insects pollinate over 80% of all flowering plants, including 70 of the top 100 human food crops. Please join us as we learn all about bees, beekeeping and honey from local beekeeper Thomas Cairns. Thomas began beekeeping eight years ago with a couple of friends and one hive. Today he has over 30 hives and plans to keep expanding his hives. Thomas will have a hive with him as well as some of his honey.

What: Lifelong Learning Series - Beekeeping

When: Sunday, August 19, at 2 p.m.

Where: The Fountains at Godfrey

LIFELONG
Learning Lecture
