

FOUR SEASONS GARDENING

2016 Winter Webinar Series

University of Illinois Extension's Four Seasons Gardening program focuses on environmental stewardship, home gardening, and backyard food production.

2 ways to attend!

- Attend in-person at your local Extension office.
- Attend online from the comfort of your home.

How to Kill Your Tree: A Guide of What NOT to Do

Feb 23 at 1:30 PM

Sometimes a tree's biggest pest is the homeowner. During this webinar, Extension Horticulture Educator, Chris Enroth, will discuss all the common mistakes homeowners make when planting and maintaining their most valuable landscape investment, their trees.

Unique Terrariums for Indoor Spaces

Mar 8 at 1:30 PM

Terrariums are a unique take on the common houseplant. They can be ideal for smaller spaces, and best of all, are easy to care for. In this class, Extension Horticulture Educator, Candice Miller, will discuss the basics of terrariums such as plant choices, proper planting, tips on plant care, and proper location to ensure success of the terrarium.

Naughty, Nasty, and Simply Annoying Plants

Mar 22 at 1:30 PM

Nasty plants can be found everywhere, including indoors. Whether they sting, poke, irritate skin, or have other poisonous tendencies, some plants need special care when handling. Extension Horticulture Educator, Rhonda Ferree, will teach you how to use and live among these plants safely. Plants covered include poison ivy, nettles, snakeroot, and more.
