A total of 11,863,456 vaccines have been administered in Illinois as of last midnight. The seven-day rolling average of vaccines administered daily is 48,012 doses. Yesterday, 42,083 doses were reported administered in Illinois.

*All data are provisional and will change. In order to rapidly report COVID-19 information to the public, data are being reported in-time. Information is constantly being entered into an electronic system and the number of cases and deaths can change as additional information is gathered. Information for a death previously reported has changed, therefore, today's numbers have been adjusted. For health questions about COVID-19, call the hotline at 1-800-889-3931 or email dph.sick@illinois.gov.
